

EYFS:

| | Spring 1 | Spring 2 | Summer 2 | Summer 1 | Autumn 2 | Autumn 1 |
|--------------------------|--|--|-------------------|-----------------------------------|------------------------|---|
| Harmony Principle | Adaptation Oneness Interdependence Cycles Health Diversity In EYFS the principles underpin each enquiry | | | | | |
| Enquiry Question | How do we help each other? Traditional Tales | What can we learn about life cycles on a farm? | What can we grow? | What lives outside our classroom? | What makes me special? | How do people celebrate around the world? |
| Reception | <p>Science at Foundation Stage is covered in 'Understanding the World'. It is introduced indirectly through activities that encourage every child to explore, problem solve, observe, predict, think, make decisions and talk about the world around them.</p> <p>During their time in reception, children will explore creatures, people, plants and objects in their natural environments. They will observe and manipulate objects and materials to identify differences and similarities. They will also learn to use their senses, feeling dough or listening to sounds in the environment, such as sirens or farm animals. They will make observations of animals and plants and explain why some things occur and talk about changes. Children will be encouraged to ask questions about why things happen and how things work. They might do activities such as increasing the incline of a slope to observe how fast a vehicle travels or opening a mechanical toy to see how it works. Children will also be asked questions about what they think will happen to help them communicate, plan, investigate and evaluate their findings.</p> | | | | | |

Links to Development Matters

Children in Reception will be learning to:

- Explore the natural world around them.
- Describe what they see, hear and feel whilst outside.
- Recognise some environments that are different from the one in which they live.
- Understand the effect of changing seasons on the natural world around them.

At the end of reception children at the expected level of development will:

- Explore the natural world around them, making observations and drawing pictures of animals and plants.
- Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class.
- Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter.

Y1: Seasonal changes, Animals including humans, Everyday materials & Plants
